75 Most Popular Staircase Design Ideas for November 2020 ...

Wood is a versatile material that is a brilliant choice when it comes to staircase design. Wooden staircases for traditional homes tend to be characterised by their substantial nature, rounded stair nosing, turned balusters and carved newel posts. However, timber can also be used in contemporary staircase design where it is often seen in the form of chunky wooden treads that cantilever out from a wall. Wood combines well with glass too.
