The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Discover the ancient Chinese secret to a long, healthy life—with just three cups of green tea per day. The Green Tea Book has been a trusted resource for almost a decade. Now, chemist Lester A. Mitscher and health writer Victoria Dolby Toews update their ground-breaking work with the latest scientific information. The "natural medicine" in green tea is polyphenols. These phytonutrients are powerful antioxidants, and Dr. Mitscher and Toews explore the research on green tea, explaining its many healing properties. You'll learn how drinking as few as three cups of green tea day a day may help: - reduce the risk of certain cancers and mitigate the side effects of cancer treatment; - promote a healthy heart; - boost immunity and detoxify the body; - support the body's natural antiaging processes; - prevent inflammation of teeth and gums, aid digestion, and so much more. The Green Tea Book guides readers to those teas highest in polyphenols, offering suggestions on choosing teas that one will savor and enjoy. This one- stop resource will have readers convinced: taking one's medicine has never tasted so good.

Audisee® eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience! The picture book inspiration for the Academy Award-winning film The Green Book Ruth was so excited to take a trip in her family's new car! In the early 1950s, few African Americans could afford to buy cars, so this would be an adventure. But she soon found out that black travelers weren't treated very well in some towns. Many hotels and gas stations refused service to black people. Daddy was upset about something called Jim Crow laws . . . Finally, a friendly attendant at a gas station showed Ruth's family The Green Book. It listed all of the places that would welcome Black travelers. With this guidebook—and the kindness of strangers—Ruth could finally make a safe journey from Chicago to her grandma's house in Alabama. Ruth's story is fiction, but The Green Book and its role in helping a generation of African American travelers avoid some of the indignities of Jim Crow are historical fact.

These collections of the official past papers of the GCE O Level Examinations from the University of Cambridge International Examinations has been developed for students of GCE O level. These books will act as tools for preparation and revision for students. These books have an edited Answer Guide for each paper based on the marks scheme written by CIE Principal
