Linux

Your Beagle should be running a DHCP server that will provide

your computer with an IP address of either 192.168.7.1 or

192.168.6.1, depending on the type of USB network adapter

supported by your computer's operating system. Your Beagle will

reserve 192.168.7.2 or 192.168.6.2 for itself. If your Beagle

includes WiFi, an access point called "BeagleBone-XXXX" where

"XXXX" varies between boards.
