L) the bar feeder system is allowed to load is given by the length of the lathe spindle. The bar should never extend more than 3 times its diameter beyond the lathe clamping device without support. LNS disclaim all responsibility for possible accidents or property damage caused when safety instructions are not followed.

Instruction manual ENG - LNS North America

LNS optimizes the performance of your CNC machines with the industry's most advanced bar feeders, chip conveyors, high pressure coolant systems, mist collectors and steady rest systems.

Discover the LNS Difference in your Country

In the 1970 ' s, LNS addressed these and other bar loading shortcomings by developing the first hydraulic bar feeders that reduced friction, noise and vibration. In the years since, bar feeding has evolved into user-friendly, ergonomic and highly efficient devices that provide a number of significant advantages. More..

Home » LNS Europe

LNS has developed a proprietary database and data transfer system that enables a turning machine and an LNS barfeed to share real-time information.
