amphibians (i.e frogs) are often used for dissections. Dissection continues today as much as (if not more than) it did 50 years ago (Hart, Wood, & Hart, 2008). Globally, the number of amphibians used in classroom dissections is unknown; however, the Johns Hopkins University Center for Alternatives to Animal

Where To Download

Testing has estimated that 6 million vertebrate animals are dissected in U.S high schools each year, well over half of which are believed to be amphibians.
